3 Governance approach and recognition in ratings

4 Outlook and contact

Energizing Chemistry – Energizing Sustainability

LANXESS contributes to a better, sustainable future

The quality of our business is reflected in the economic, social and environmental impact – there must always be a measurable, sustainable benefit for the company and society alike

- This **guiding principle** is anchored in our **strategic imperatives**
- Therefore, sustainability is on the top of our **management agenda** and integrated in our group-wide structure
- We encourage our **employees to actively shape sustainability**

Good for business, good for society

Sustainability is a business case and drives our economic and strategic success

Sustainability is a business case and drives our economic and strategic success

We drive sustainable solutions...

- **Societal needs** which we can and want to fulfill, e.g.
 - > **Need for clean drinking water** for an increasing world population
 - > **Disinfection** to prevent the spread of **diseases**
 - > Contribute to the shift towards **e-mobility**

... and we see clear financial benefits

- **Cost saving potential** by addressing areas of sustainability risks precautiously and timely > energy-efficient production
- Strategic investment decisions by shifting into “tomorrow’s markets” with **growth and innovation potentials**
 - > acceptance and reputation
- Position ourselves with a **foresighted business strategy** and thereby secure our financial base
 - > better, integrated decision-making
- Healthier and happier workforce
 - > higher **employee retention** and **lower recruiting** cost

Our product portfolio caters to several Sustainable Development Goals

LANXESS products are used in applications which positively contribute to seven of the SDGs¹

2 ZERO HUNGER

- ❖ Fertilizers
- ❖ Fungicides, Herbicides
- ❖ Food & Beverage packaging
- ❖ Food grade lubricants

6 CLEAN WATER AND SANITATION

- ❖ Drinking water
- ❖ Make-up water
- ❖ Waste water treatment & reuse

11 SUSTAINABLE CITIES AND COMMUNITIES

- ❖ Protective coatings
- ❖ Root resistance roofing
- ❖ Wood Protection
- ❖ VOC free flooring

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

- ❖ Additives to increase product life
- ❖ Long-life lubricants
- ❖ Pigments to enable recycling
- ❖ Material preservatives

3 GOOD HEALTH AND WELL-BEING

- ❖ Cleaners
- ❖ Disinfection
- ❖ Intermediates for pharmaceuticals
- ❖ Insect repellents

7 AFFORDABLE AND CLEAN ENERGY

- ❖ Power generation lubricants
- ❖ GHG free refrigeration lubricants
- ❖ Wind turbine lubricants

13 CLIMATE ACTION

- ❖ BEV powertrain
- ❖ Thermal insulation
- ❖ Lightweight material for automotive

Our journey: Continuous improvement of the net positive impact of our products

¹ SDG = Sustainable Development Goals

² 70% of sales directly attributable based on end market/applications data, 30% of sales not directly attributable due to indirect business relationships

We offer extensive transparency on our commitment to sustainability

We commit to several initiatives and frameworks

We offer transparency on where we stand complying with standards and regulations

Agenda

1 LANXESS ESG vision

2 High impact topics: Status and targets

3 Governance approach and recognition in ratings

4 Outlook and contact

LANXESS goes climate neutral by 2040

Our goal: Climate neutrality

Emissions based on Scope 1 + Scope 2, numbers rounded, in thousand tons of metric tons CO₂e

Three-pronged approach

- Major impact projects**
 - Exit coal-based power generation wherever possible
 - Reduction of N₂O emissions in Antwerp → **first reduction plant operational**
 - Change to renewable energies in India
- Decoupling emissions and growth**
 - CO₂e balance as criteria for organic growth and acquisitions
 - Implement climate roadmap for all businesses → **implemented in annual strategy review**
- Strengthening process and technological innovation**
 - Implement process changes in our “Verbund” structures
 - Focus R&D on climate neutral processes and technology

Ahead of EU regulation

- LANXESS actively reduced CO₂e emissions in line with Emission Trading Scheme (ETS) reduction targets
- Cost effect from ETS is currently neutral

We are on track with achieving our 2025 target

¹ Climate neutral: Less than 300,000 tons of CO₂ equivalents per year. These will be reduced through compensation measures.

² This is based on new legislation for a more ambitious 2045 Net-Zero Emission Goal. | ²³⁴ Estimation based on AGORA Energiewende

LANXESS has a clear strategy for sustainable water management

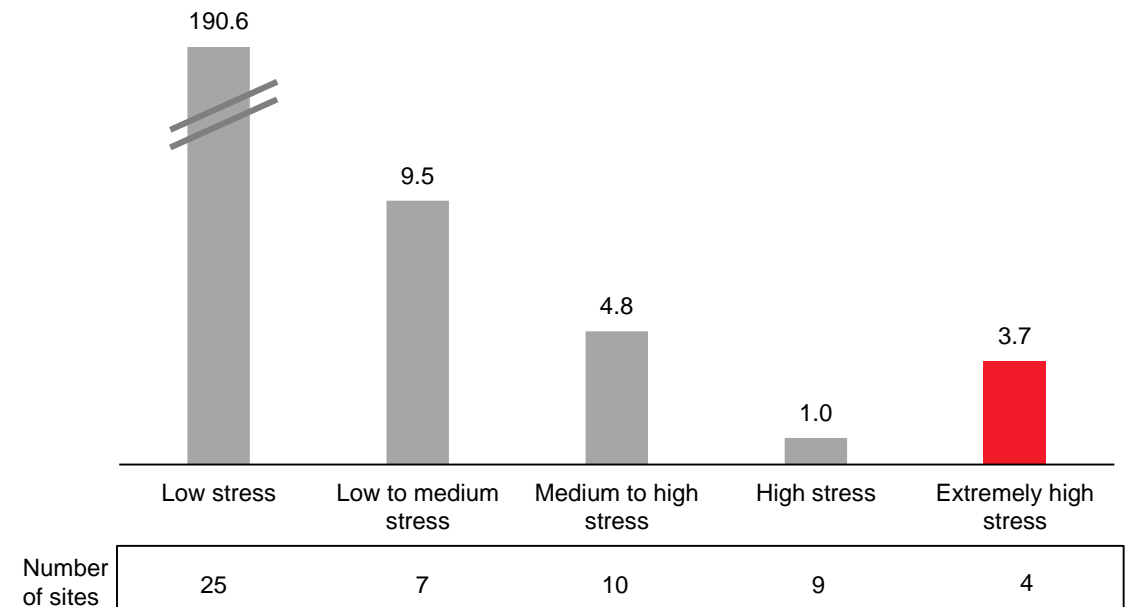

Global water program

- Globally, we aim to decouple economic growth from water consumption and wastewater loads
- **Targets: 2% yoy reduction of specific water consumption and specific Total Organic Carbon in wastewater**

Local water stewardship programs

- We regularly perform **water risk assessments** for all sites
 - Assessment of current and future water stress¹ and specific withdrawal
 - Four water risks sites identified
- **Targets: Implementation of water stewardship programs at water risk sites until 2023; 15 % reduction of absolute water withdrawal (base year 2019)**

Water withdrawal in the different water stress areas

Water withdrawal in m m³, data from 2020

90% of LANXESS water withdrawal in low water stress areas; targets focus on sites in extremely high stress areas

LANXESS has the ambition to substitute or phase out critical substances from end-products

Critical substances in end-products

LANXESS net sales share of products¹ with critical substances² in end-products (>0.1%)

Data from 2020

Our ambition

We have the ambition to:

- 1. Replace:** If critical substances in our end-products can be replaced with alternative substances, we will implement a replacement plan
- 2. Phase-out:** If according to our scientists or regulatory bodies the concerns or risks are beyond reasonable levels, we will phase-out the substance

If critical substances can't be replaced, we have implemented **risk mitigating measures** based on scientifically acceptable levels.

Target: Until 2023 we have an action plan in place for all end-products containing (>0.1%) critical substances

¹ Not considered as end-products are chemical intermediates sold to chemical-industry customers.

² Substances classified as carcinogenic (Cat 1A and 1B), mutagenic (Cat 1A and 1B), toxic for reproduction (Cat 1A and 1B), persistent, bio accumulative and toxic, very persistent and very bio accumulative, endocrine disrupting, ozone depleting.

We have a strong commitment towards diversity and inclusion

Success driven by personal commitment of each and every employee

- Further increase proportion of women in...
 - Middle and upper management to 20%
 - First level below Board of Management to 15%
 - Second level below Board of Management to 25%
- Have at least 30% female and 40% non-German participants in corporate talent programs
- Further increase proportion of countries with flexible working conditions

We are on track with achieving our targets and plan to further foster diversity and inclusion

LANXESS views social principles as major drivers for sustainable success

Ambition: Avoid all accidents

Social principles are more than diversity indicators

LTIFR¹: Accident rate per million hours worked

- Commitment to ILO convention and its principles for work
- Initiatives fostering occupational health and safety, e.g. platform in place with various offers around health and prevention measures
- Fair compensation and benefits model
- Comprehensive concepts for employee qualification, e.g. reflected in high ratio of apprentices hired after completing the training
- Close and regular collaboration with works' councils and labor unions leading to avoidance of conflicts and strikes

Our social principles are embedded in our Performance Culture

Agenda

1 LANXESS ESG vision

2 High impact topics: Status and targets

3 Governance approach and recognition in ratings

4 Outlook and contact

Our governance structure ensures strategic oversight – starting with the supervisory board

Supervisory Board

- Competence profile
- Sustainability embedded in yearly strategy review

Committees

- Sustainability (CEO)
- Risk (CFO)
- Investments
- Digitalization

Compensation

- Long-Term Stock Plan
- Sustainability Performance Plan
- Short-term incentive incl. non-financial target

Composition

The Supervisory Board of LANXESS consists of **12 members**:

6 represent the **shareholders**
6 represent the **employees**

Independence

All current shareholder representatives are **independent**

Diversity

>30% of the members of the Supervisory Board are **women**

Tenure

Maximum of 12 years

Assessment

Supervisory Board regularly assesses its effectiveness as a whole and its committees

Age Limit

An **age limit** has been set following the completion of the **75th year of life**

Broad Competence profile to ensure specialist knowledge and experience

Chemical industry, international management, corporate governance/compliance, strategy, M&A, production, marketing & sale of chemical products, procurement of raw materials, energy & services, HR/codetermination, investor relations, corporate financing, accounting and auditing, risk management and IT/digitalization

CEO lead committee structure guarantees effective sustainability management

Supervisory Board

- Competence profile
- Sustainability embedded in yearly strategy review

Committees

- Sustainability (CEO)
- Risk (CFO)
- Investments
- Digitalization

Compensation

- Long-Term Stock Plan
- Sustainability Performance Plan
- Short-term incentive incl. non-financial target

Sustainability Committee

Matthias Zachert (CEO)

Entire board reviews and tracks quarterly the sustainability performance and aligns on targets and action plans.

SUSTAINALYTICS

Agenda

1 LANXESS ESG vision

2 High impact topics: Status and targets

3 Governance approach and recognition in ratings

4 Outlook and contact

We are pursuing our ESG contributions globally

Recent achievements

- Aggressive CO₂e reduction, especially due to high impact projects
- Clear targets set for reduction of water consumption, again with focus projects
- Sustainability reflected in remuneration of Board of Management

High transparency honored

- High scores achieved in MSCI, CDP and Dow Jones Sustainability Index
- High transparency ensured through reporting according to high standards (SASB, TCFD, GRI)

EU Taxonomy

- Establish processes for first reporting in Annual Report 2021 in accordance with EU Taxonomy
- Taxonomy focuses on sectors contributing over 93% of European Scope 1 CO₂ emissions; positive signal: LANXESS only with minor share of product portfolio

There is more to come on LANXESS sustainable way forward

On course for a more sustainable environment

Sustainability at the core of our strategy

Creating measurable benefits for company, customers and society

Supporting a sustainable economy with activities and products
